Heliaflor®

We believe that nature can offer people everything they need. We have made it our mission to produce and process our products as naturally and gently as possible through innovative research and development.

Together with the right people in the right place we are successful!

Aim is to accompany our products from the plant to the processed oil, protein or flour and to keep this path transparent. Together with our suppliers and processors, we achieve top quality for our customers.

Your supplier for natural Oils & Fats

Whether shea butter from Burkina Faso, almonds from Spain or St. John's wort macerate from our own cultivation and production in Germany – providing high-quality products from sustainable and environmentally friendly sources is our passion.

High-Quality Raw Materials

We maintain long-term supplier relationships and actively develop new raw material sources. Seeds, nuts and fruits are carefully selected and processed to preserve all their ingredients. We guarantee 100% pure and high-quality vegetable oils!

Own Production

Our in-house production is a cornerstone of our business model. With an impressive 60% of our products manufactured internally, we not only ensure the highest quality but also tailor our offerings to meet the unique needs of our customers. This allows us to respond dynamically to market changes and maintain the availability of our products at all times.

Extensive Quality Controls

Our products are subject to a careful process quality control. We cooperate with our in-house laboratory as well as with external accredited laboratories. Only if all legal and AOT specifications are met, our products are released for sale. We offer batch analysis for all products. Our standard is highest quality!

Personal Customer Service

In order to offer you the best possible service, you have your personal contact person. We are always available for your questions, special offers or individual requirements. We make everything possible.

Oils, Fats & Waxes

Oils and fats are the base for the production of natural cosmetic products. Our high-quality, sustainable oils and fats meet the highest standards and are perfectly suited for the production of your cosmetic products.

From base oils such as Apricot Kernel Oil, Almond Oil or Evening Primrose Oil or waxes like Beeswax or Carnauba Wax to active ingredient oils such as Pomegranate Seed Oil, Raspberry Seed Oil or Sea Buckthorn Pulp Oil, you can find almost everything in our assortment.

Macerates

Our macerates are organically gained oil extracts. They contain, besides volatile terpenes, many other components and therefore have a broad olfactory and rich active ingredient spectrum.

We offer classic macerates such as Arnica Macerate or Calendula Macerate as well as our own fresh plant macerates like St. John's Macerate, which all have the maximum active ingredient profile.

StoppOx®
natural antioxidant

Antioxidants

Discover our innovative and natural antioxidants for your cosmetic products. We offer our own antioxidant blends such as StoppOx® Lipid for oils and fats and StoppOx® Emulsion for formulas as well as pure antioxidants like StoppOx® AP Ascorbyl Palmitate or basic Tocopherol such as StoppOx® Toco 70.
